

THE

ECHO

FALL & WINTER

JOURNAL OF TORONTO GYMNOSOPHICAL SOCIETY

OCTOBER, 1967

Editorial

by Don Smith

The operation and organisation of T.G.S./Glen Echo has changed.

Eddy indicated that he desired full control of the Society and the land. He is taking full responsibility for all aspects of Glen Echo.

The membership agreed to this in a free vote at an open meeting. One of the prime motivations for this change is that Glen Echo is not paying its way.

When Eddy first purchased the land and commenced the Society he did not expect to see any return on his investment for several years. No return has been forthcoming for 12 years.

At no time has Eddy expressed expectations of receiving a 12-month income from the operations of Glen Echo, but he must and should obtain an adequate return on his invested capital and some income for the months of the year when his presence there is essential.

T.G.S. must produce a greater income.

The obvious thing to do, of course, is to raise the fees but it is possible that the loss of members would offset any gain.

An examination of all the sources of possible revenue must be made.

One hundred new families would put T.G.S. in balance financially.

It is as simple as that.

Eddy is obtaining professional advice from an Accountant and a Public Relations man; the rest is up to us.

We are rushing a new "Nudist Primer" into print to help you tell your friends and associates about Nudism. In extreme cases we could arrange for another member to visit your friends for you.

It is up to you.

The solution of the problem is undoubtedly a combination of the three suggestions:-

An increase in fees.
Other sources of revenue.
More members.

Just bring your friends - that is the best contribution you can make.
